Student Tutor, Fall 2019, Fall 2020
Wood Shop Technician, Winter 2018

Skills

Design Thinking	Adobe Programs
Communication	3D Modeling
Sketching	- Rhino
Model Making	- Solidworks
Rapid Prototyping	- Blender 3D
	- Grasshopper

Work Experience (Most Relevant)

Garmin Winter 2020

Industrial design internship. Worked with designers and engineers to create a concept for the scuba diving market. Created basic component layout, conceptualized the re-purposing of Garmin technology to a particular market segment, established a visual direction, created 3D models and renderings of concept.

This internship was finished online due to COVID-19, giving me experience working remotely.

Bissell Summer 2019

Industrial design internship. Worked with a marketing intern to research and develop a product concept for the pet market. Concept is seriously being considered for patents and further development.

This internship gave me experience working with teams and conducting research.

Zeiss Fall 2019

Zeiss sponsored school studio. Worked on a team of 6 design students to create an interactive brand installation concept which Zeiss planned to install in its new metrology headquarters.

Piano Teacher 2016-2017

Started and ran private piano studio. 8-12 students. Responsible for teaching lessons as well as managing scheduling, developing the curriculum, and bookkeeping.

I have experience running my own business and teaching.
